**VISITORS**

1. Michael Petrosky – 146 E. 1<sup>st</sup> Avenue, Derry PA – He came to meeting to ask council to review the parking in front of his mother’s home. He is asking that council allow them to have a parking space in front of their house without parking regulations posted. They live in a house which is located in the central business district of Derry Borough; and where the house is located there are signs posted no parking between 2am – 7am mainly for the purpose of street cleaning. His mother is elderly and has a difficult time getting in and out of the vehicle. Brown Way is no longer accessible since the bridge is out, which makes it difficult to park behind their home and they would like to utilize one parking space in front of their home as most of the residents of the Borough are able to on the public street. They have recently received parking tickets due to the current signage in front of their home. They understand in the winter that when it snows they should not park on the street in order for public works to plow the streets; however, they are hopeful council will review their specific circumstances and allow them to have the ability to park in front of their home overnight without receiving citations. They are residential taxpayers and feel that their circumstances should be considered. Council agreed to discuss the issue and see if they can come up with a better solution.
