Help our Community Reduce Winter Stormwater Pollution

Derry Borough would like to remind all residents who live and work within the Borough that our storm sewer inlets, curbs and gutters, drainage ditches and storm pipes discharge directly and untreated into McGee Run, Ethel Springs Lake, Garland Mills Run and other natural waterways within the Borough. In order to help keep our streams and lakes clean, we remind residents and businesses to please be mindful of the following:

Please Do NOT put grass clippings, used oil, paints, solvents, pet wastes or other wastes into the storm drains, onto the street or into streams or other waterways. Please Clean up all pet waste. Don't let pet wastes get washed into the street or down the storm drain.

While washing your vehicles at home, please wash your vehicle in a grassy or gravel area. This will divert your wash water into the grass or gravel area which will act as a filter.

Please Do NOT discard leaves onto the street, into the storm drains, streams or Together, we can protect and preserve the streams and lakes of our community.
